Hawai'i Community Genetics

Hawai'i Community Genetics was created as a collaborative effort of the Department of Health, Hawai'i Medical Services Association, Kapio'lani Medical Center for Women and Children, Queen's Medical Center, and the University of Hawai'i John A. Burns School of Medicine. In future months, more local partners will join the collaborative group.

Hawai'i Community Genetics has contracted with the Stanford School of Medicine to help provide clinical pediatric and adult genetic services and genetics education. The Stanford team is led by Dr. Eugene Hoyme. Dr. Hoyme is Professor and Chief of the Division of Medical Genetics at the Standford School of Medicine, and the Director of the Stanford/University of California San Francisco Medical Genetics Residency Program. Dr. Hoyme's expertise is in dysmorphology and clinical teratology, especially in the evaluation and diagnosis of Fetal Alcohol Syndrome. Another member of the team is Dr Greg Enns. Dr. Enns is board certified in clinical biochemical genetics with special expertise in inborn errors of metabolism and newborn screening. More information about the Stanford team is available on our website (www.hawaiigenetics.org).

The Stanford geneticist(s) will hold clinics one week per month in Hawaiʻi. In the future, telemedicine sessions will also be available. Support services will be provided by Dr. Greg Uramoto, Gail Kearny, Janet Brumblay (Kapioʻlani Medical Center), Allison Taylor, Lianne Hasegawa, and Joni Ishihara (Department of Health), and Susan Donlon (Queen's Medical Center).

IMPORTANT CONTACT INFORMATION

To Make a Patient Referral:	(808) 973-3403
Janet Brumblay, R.N., M.S.N. Genetic Nurse, KMCWC	(808) 973-3403
Susan Donlon, M.S, C.G.C Genetic Counselor, QMC	(808) 537-7633
Lianne Hasegawa, M.S. Genetic Counselor	(808) 733-9039
Gayle Kearney, R.N. Nurse Supervisor, KMCWC	(808) 973-3403
Christine Matsumoto, R.N, M.P.H. Newborn Screening Coordinator	(808) 733-9069
Allison Taylor, M.S. Genetic Counselor	(808) 733-4998
Greg Uramoto, M.D. Pediatric Endocrinologist	(808) 973-3403
